

THE EPILEPSY FOUNDATION OF GREATER LOS ANGELES WELCOMES TWO NEW BOARD MEMBERS

Los Angeles, CA (March 23, 2011) - The Epilepsy Foundation of Greater Los Angeles is pleased to announce the recent appointments of Bradley P. Boyer and Matthew Howley to their Board of Trustees. Mr. Boyer and Mr. Howley bring a wealth of professional knowledge and first-hand experience with epilepsy to the organization.

Bradley P. Boyer is a Partner in the Los Angeles Office of Ropers Majeski Kohn & Bentley, a national law firm, which focuses in part on entertainment and business related litigation. As a result of his diverse, longstanding career and numerous high-profile representations, he has been quoted, covered or been a guest on TV and radio programs. He has also authored a number of articles which have appeared in various publications. As a father of two girls - the oldest of whom has severe epilepsy and cerebral palsy - Boyer has witnessed firsthand the difference that quality medical care and properly trained doctors can make in allowing children to maximize their potential. He is committed to helping ensure that all families, regardless of their education or financial background, have prompt access to quality treatment.

Matthew Howley, a native Southern Californian and a graduate of Chapman University, is a Financial Advisor with the Global Wealth Management unit at Morgan Stanley Smith Barney, specializing in Intergenerational Estate Planning, Philanthropic Estate Planning, and Retirement Planning. Howley's employment at Morgan Stanley Smith Barney is preceded by his work at a boutique residential and commercial real estate firm. Howley began having seizures as an adolescent, and while he is now free of seizures, Howley joins our Board as someone who understands the challenges of epilepsy and is dedicated to work towards ending epilepsy.

The thirteen-member Board of Trustees leads the efforts of the Epilepsy Foundation of Greater Los Angeles to fulfill its mission to serve those with epilepsy in this region, particularly through raising funds and awareness.

About the Epilepsy Foundation of Greater Los Angeles

Established in 1957, the Epilepsy Foundation of Greater Los Angeles is the only non-profit, 501(c)(3) charitable organization dedicated solely to serving the estimated 160,000 people living with epilepsy in Los Angeles and surrounding counties. The Epilepsy Foundation of Greater Los Angeles is leading the fight to End Epilepsy through care, advocacy, research and education. For more information, visit END-EPILEPSY.org
